MILTON CODES FOR WATER AND SERVICE UTILITY FEES:

WATER:

13.28.030 Water Service Application – Contents – Fee payment required:

A. All applications for water service to and for the use of water within any premises shall be made at the office of the water department of the city by the owner or authorized agent on printed forms to be furnished by the water department for that purpose. The application shall show the name and address of the owner or agent, legal description of the premises, name of the street upon which the property fronts, together with the corresponding official house number assigned to the premises, if available. The applicant shall state the purpose for which the premises are to be used, the number of families to be supplied for domestic use, and the size of service connection desired.

B. At the time of filing the application, he shall pay all fees and deposits required for constructing the water service connection as provided in this chapter and in Chapter [3.48](#). He shall also pay all necessary water main construction charges, and he shall agree to conform to and abide by all provisions of this chapter and rules and regulations of the water department as they now exist or may hereafter be established. (Ord. 561 § 3, 1969).

ELECTRIC:

13.08.030 Electrical Distribution Fees:

A. In addition to any other charges whatsoever, there shall be a facilities charge assessed against each lot in all new, pending and undeveloped plats, short plats, and individual building sites. The applicable fee shall be based upon the minimum square footage lot requirement as defined in the latest city revised zoning code for single-family and multiple-family dwellings. All assessments in long plats shall be paid prior to energizing the system within the plat whether overhead or underground. Assessments on short plats and individual building sites shall be paid prior to furnishing electrical service.

B. The fee also applies to vacant building sites which previously contained a building or structure and also current sites containing a building or structure which has been occupied and the service removed or off for a period of two years or longer.

C. Commercial sites shall be assessed as indicated by Chapter [3.48](#) MMC. Assessments shall be paid prior to furnishing electrical service.

D. Any and all late comer fees that arise from developer extension agreements shall be paid prior to the furnishing of an electrical service. (Ord. 1012 § 3, 1986: Amended at city's request, 2/9/84; Ord. 796 § 3, 1979).

Utility Charges to Begin at the Following Times:

- **Temporary Electricity:** As soon as the temporary electric meter is installed on the temporary pole
- **Permanent Electricity:** As soon as the permanent electric meter is installed on the structure
- **Water:** As soon as the water meter is installed

I/we have read the foregoing application, know the contents thereof, and believe that factual statements contained therein and provided by us to be true, and do sign this Application on this the day of _____ in the year of _____ .
